Cyndi

I just wanted to tell you how much we enjoyed working with Walter in our Continuing Education Seminar last December. As you know, we asked Walter to do an encore performance in that he was so well received by our students in 2003. As usual, Walter did an outstanding job and he received rave reviews from our seminar participants.

I especially appreciate Walter's professionalism and ease to work with which makes everyone's job so much easier. Back in my days at the University he would have received a grade of A+. Give Walter our best regards and thanks for a job well done.,

Robert J. Connole PhD, DREI
