Dear Walter:

Thank you for making our seminar a huge success! The comments from the students were the best ever. The committee members and myself were impressed with the knowledge and presentation you made with the course material.

We knew the class was going to be a winner based on the reactions during the morning break. Thank you for all you did to make our seminar successful. It was a pleasure meeting you again and I hope you will be able to be an instructor for us in the future.

Sincerely,

A handwritten signature in cursive script that reads 'Debra Albice'.
